Critical Intelligence Problems Committee

25X1

DCI/ICS 86-3798
6 October 1986

MEMORANDUM FOR: Members, Critical Intelligence Problems Committee

25X1

VIA: Eloise R. Page
Chairman

SUBJECT: Status Report on CIPC Projects and Activities--September 1986

25X1

1. Committee Meeting: The Committee did not meet in September. The next meeting is planned for November to discuss several studies currently nearing completion.

25X1

2. Mobile Missile Study: The CIPC staff continues to participate in the DCI's Mobile Missile Task Force effort. The CIPC Vice Chairman represents the Intelligence Community Staff on the Collection Systems Working Group. The staff has been involved in developing various collection options to improve the intelligence coverage of the mobile missile problem. Upon completion of the work of the DCI's Task Force, the CIPC is prepared to develop an implementation plan for the recommendations contained in the Task Force's report.

25X1

3. NFIP Support to Contingency Operations: The working group on NFIP support to contingency operations met in mid-September to review a draft report. Recommended changes have been incorporated in a revised version. In addition, the name of the study has been changed to NFIP Support to Limited Military Operations which better represents the scope of the study. The final draft should be ready before the end of the month. However, before submitting the report to the CIPC for its consideration, the working group plans to solicit the views of selected operating forces.

6. Intelligence Support to SDI: A first draft of this study has been provided to the SDI Working Group with comments expected by the end of October.

25X1

7. Other CIPC Staff Activities: The CIPC staff has been participating in weekly sessions of the IR&DC working group chaired by Dr. Craig Fields, Chief Scientist at DARPA. This group is preparing a report for the DCI on advanced technologies that could have intelligence applications in low-intensity conflicts. The working group is receiving inputs from the Community on candidate technologies and should complete its report by October.
